Position: Registered Nurse (Mental Health)

Type of Job: Permanent

Job Location: UK

Salary: £36000 per annum

Experience: Minimum 6month of experience

Education: GNM, BSc and MSc

Responsibility & Accountability:

- The primary role of a mental health nurse is to provide care to patients with a psychiatric disorder, mental health issue, or behavioral problems. Many of the tasks performed by a mental health nurse are similar to that of a psychiatrist and include diagnosis, psychotherapy, and prescription of medications.

- Assessment and evaluation of the patient's mental health

- Development of treatment care plan

- Consultation with other health professionals about the treatment plan

- Provision of care and psychotherapy treatment

- Maintenance of medical records

- Support and education to the patients and their family

- Building relationships with, reassuring, and listening to, and talking to patients

- Administering medication

- Agreeing and reviewing care plans and monitoring progress

- Encouraging patients to take part in therapeutic activities such as art and role play
